## VISIONARY DVD CLUB EXPLORES FRONTIER OF CONSCIOUSNESS

The Visionary DVD Club is the newest venture for The Message Company, the world's largest producer of cutting-edge, mind-expanding programs on consciousness. This DVD Club features the insight, vision and wisdom of the world's leading-edge thinkers, researchers, explorers and visionaries in the areas of Healing, Science and Consciousness, Sacred Sexuality, Enlightenment, Shamanism, Peak Experiences — just some of the topics.

The Message Company has long been known for producing their conferences on consciousness. They have an amazing ability to bring together leading-edge thinkers, people known and loved for years, like Matthew Fox, Huston Smith, Fritjof Capra, Peter Russell, Barbara Marx-Hubbard, Rupert Sheldrake and Angeles Arrien, in one extraordinary event after another.

Knowing that not everyone who wanted to attend these events was able to do so, the President of The Message Company, James Berry, came up with the idea of making the presenters from these extraordinary conferences more readily available to an increasingly more conscious public.

The folks at The Message Company developed a system that provides the best possible value for the investment, set up in a similar way to a magazine subscription. Once enrolled, the subscriber receives his DVDs like clockwork.

Each month, the Visionary DVD Club member receives not one, but three, programs filmed by The Message Company.

Presenters include Dan Millman, Michio Kaku, Margot Anand, Stanislav Grof, Judith Orloff, Edgar Mitchell, Candace Pert, Brooke Medicine Eagle, Charles Tart, Richard Moss, Kathlyn Hendricks, Peter Levine and dozens of others.

Subscribers keep all DVDs and can view them whenever they like, over and over again with family and friends.

A number of people have formed Visionary Circles, groups that gather to view these programs and then discuss the material. They have enthusiastically reported that it's a wonderful way to connect with like-minded people or to go into deeper communication with dear friends. It's a way to stimulate thoughtful and inspiring conversation and the perfect alternative to junk TV!

Some things subscribers like about the Visionary DVD Club are 1) you get three programs each month, 2) it's affordable — only \$20 a month, conveniently charged to a credit card, 3) you own the DVDs received — there's no messing around with returning them to stores or by mail (and no late fees), 4) shipping is free within the USA (no hidden charges in small print) and 5) you can cancel your membership at any time.
